

Waveform Festival

The Leading Sustainable Dance Music Festival

Part of the International Earth Dance Celebrations.

LESS IMPACT, MORE MUSIC!

September 12th-14th 2008

www.waveformfestival.com

Dear Trader

We are now taking trading applications for the Waveform festival, the sustainable dance music festival. Last year Waveform established itself as an award winning, environmentally friendly event with an incredible line up of cutting edge dance music. It's back with an **all night music license** and even more musical variety.

This year's Waveform will be held at Warren Farm, Liddington, Wiltshire SN4 0EB, close to the M4 with easy access from Bristol and London.

We will have two market areas, one in the main arena and one in the green village. Food traders will either be placed in the Green Village or form a food emporium in a horse shoe shape with a shared large dining marquee in the centre, the cost to be split between those involved.

Access to the site for food traders is from 11.00am Wednesday 10th, non food from 9.0am Thursday.

All stalls need to be open for business when the public arrive from 9.00am on Friday. Trading hours are until midday Monday and the site must be cleared by 8.00pm that evening.

Successful applicants must be able to comply with our trading terms attached.

Festival Information -

3 Days • 5000 capacity • All night music license • 5 stages and arenas • Just off M4 between Bristol and London.

FIVE STAGES & GREEN VILLAGE • EARTHDANCE EVENT • GREEN ETHOS

We are especially interested in traders who do anything green and sustainable such as fair-trade, solar or wind powered, organic, eco-friendly, energy-saving, low carbon, green inventions, sustainably sourced products etc. If you fit this profile please do apply. If not then don't be scared off – we will still be interested in hearing from you.

Hope to see you there.

All the best,

Waveform Team
